** **SPECIAL NOTES/REQUIREMENTS FOR BACKFLOW PREVENTER INSTALLATION:** A backflow preventer is mandatory for meter purposes 2 thru 5 above. A high-hazard backflow preventer is required for all industrial & lawn irrigation meter purposes. City of Atlanta, Code of Ordinances, Section 154-66.

It is the responsibility of the Owner/Contractor to ensure that the backflow device is installed and tested to be in compliance with the City of Atlanta, Code of Ordinances. A final inspection by Backflow Division [(404) 609-7112] is required and the installation must be approved prior to turning on water service. It shall be the responsibility of the Owner/Contractor to schedule the final inspection with the Backflow Division at least ten (10) days before the intended facility occupancy date.

I hereby agree to accept the device herein applied for, subject to all Ordinances, Rules and Regulations of or pertaining to the Bureau of Drinking Water now in effect or that may hereafter be adopted. I also agree that all information contained in the application has been reviewed and is correct.
