The Stormwater Roadshow is a series of Open House events designed to engage the public about stormwater issues. The goal of the Roadshow is to listen to the community and gather feedback about the Department's stormwater program and projects. Attendees will also have multiple opportunities to learn about stormwater and interact with Watershed Management Staff.

Come and let your voice be heard. The DWM stormwater team will be on hand to discuss current and future programs, and how to be good stewards of the watersheds. We will listen to YOU about the impact of stormwater in your community.

Light refreshments will be provided.
